

FORMULA SEVEN

FORMULA SAE COMPONENTS

Pinion Spline Coupler (Steel)

Mechanical Data	
Weight	80 g
Material	C40
Outside Diameter	25mm
SPLINE SPECIFICATION:	
Module	0.5
Number of teeth	28
Angle of pressure	30°
Standard	CUNA B-129

Spline coupler is made of steel and it's left rough so that every customer can decide whether to weld it to the steering shaft, or join it via adhesive bonding or by using a bolt through. Also the outer diameter is left 25 mm so that every team can reduce it to their own desired measure.
